CITY 2

City 2 è un aggiornamento della collezione City già presente nel catalogo prodotti GSI ceramica. Le novità introdotte riguardano esclusivamente i sanitari, wc e bidet, della collezione, sia nella versione per installazione a pavimento che a sospensione. La collezione City 2 infatti abbina alle due linee di lavabi disponibili anche in City due nuove versioni di sanitari distinte per design e funzionalità. I sanitari City 2 hanno un design rinnovato e nella versione a pavimento possono essere installati a filo muro. Per i sanitari City 2 è disponibile inoltre un nuovo copriwater dedicato con linee minimaliste che configurano un prodotto nell'insieme sobrio, elegante e adatto ad essere inserito in contesti di arredo dallo stile differenziato.

City 2 range is an upgrade of the City collection already available from the GSI ceramics catalogue. These changes only concern the WC and bidet. City 2 features a brand new design on both versions: floor standing and wall-hung. Additionally, the floor standing version can now be installed back to wall. To complement this range a new toilet seat is also available, featuring clean lines and a minimal look. The result is a sober, elegant product which is suitable for a wide range of furnishing environments. These 2 new versions can be combined with both lines of washbasins available from City: semicircular and rectangular versions. City 2 range has a new design and the floor fitting version can be installed flush with the wall. To complement this range there is also a new toilet seat available characterized by essential lines which create a product throughout sober, elegant and suitable for different furnishing environments.

Lavabo / Washbasin

CITY

La famiglia City è caratterizzata da linee morbide e dimensioni contenute. Una semplicità classica e intramontabile adatta ad ogni tipo di esigenza. City è composta da due linee di lavabi, due coppie di wc e bidet (di cui una sospesa) tutti con sistema di scarico 4,5 litri (GSI Save Water). I lavabi semicirculari possono essere installati a sospensione, su colonna o su colonna sospesa, mentre i lavabi rettangolari possono essere installati a sospensione e ad incasso ad eccezione del lavabo 60 che può essere installato su colonna o su colonna sospesa. Tutti i lavabi rettangolari sono accessoriabili con uno specifico portasciugamani in ottone cromato.

The City family is characterized by soft lines and restrained dimensions. A classical and timeless simplicity which fits every kind of requirement. City is composed of two lines of washbasins and two pairs of wc and bidet (featuring a wall-hung version), all with a flushing system of 4.5 litres (GSI Save Water). The semicircular washbasins can be installed as wall hung, on pedestal or on wall-hung semi pedestal, whereas the rectangular basins can be installed as wall-hung or undermounted - with exception of the 60basin that can only be installed on pedestal or on wall-hung pedestal. All the rectangular washbasins can be accessorized with a bespoke towel rail in chromed brass.
